ACCESSORIES CAN BE YOUR NEW BEST FRIEND. THEY WILL:

- Bring attention to your best points and minimize your worst
- Bring an older outfit up-to-date with this season’s accessories
- Change the look of an outfit by updating your accessories such as chic, elegant, sophisticated, business, casual, or fun.

3 TIPS THAT WILL HELP YOU START ACCESSORIZING TODAY

1. Don’t be afraid to experiment & have fun!
Accessorizing is a fun and creative process! Accessories will help you stand out, they will also help you save money and you’ll always look fabulous. Accessorizing your outfit, can seem overwhelming at first. Have fun experimenting with different styles of jewelry, scarves and belts that will make the clothes you already own look totally different enabling you to wear them more often. You will look amazing and nobody will even notice that’s the same shirt or skirt you wore two days ago.

2. Work around one focal point
Focal points are things that attract attention such as a striking design or a bright color. The easiest way to accessorize is work around one focal point, whether it’s a piece of jewelry, a scarf or a floral print jacket. Work around it by adding pieces that are smaller in size and not as flashy. If you have a bold and busy focal point, for the rest of your accessories
